DevOps Engineer (Fresher) | AWS | Docker | Kubernetes | Jenkins | Terraform | Ansible | CI/CD | Linux | Git | ELK

## PROFESSIONAL SUMMARY

DevOps Engineer (Fresher) with strong hands-on experience through real-world projects in cloud infrastructure automation and CI/CD implementation. Proficient in designing AWS-based architectures, containerizing applications, managing Kubernetes workloads, and provisioning infrastructure using Infrastructure as Code. Experienced in monitoring, logging, and troubleshooting cloud-native systems with a focus on scalability, reliability, and automation.

## TECHNICAL SKILLS

**Cloud:** AWS (EC2, VPC, S3, IAM, RDS, CloudWatch, ALB, Auto Scaling)

**CI/CD:** Jenkins, Git, GitHub, Maven, Nexus

**Containers & Orchestration:** Docker, Kubernetes (EKS), Docker Compose

**Infrastructure as Code:** Terraform, CloudFormation (Basic)

**Configuration Management:** Ansible

**Scripting:** Bash / Shell, Python

**Monitoring & Logging:** CloudWatch, Logs & Alerts, Grafana, ELK Stack, Prometheus

**Operating System:** Linux (Ubuntu)

**Networking:** VPC, Subnets, NAT, Network ACLs, Routing, Load Balancers, DNS

## PROJECTS

### High-Availability 3-Tier Architecture on AWS & End-to-End DevOps Automation

**Tech Stack:** AWS, Jenkins, Docker, Kubernetes (EKS), Terraform, Git, Prometheus, Grafana

- Designed and implemented a scalable three-tier architecture using VPC, EC2, RDS (Multi-AZ), Application Load Balancer, and Auto Scaling.
- **Provisioned** and managed cloud infrastructure using **Terraform**, following Infrastructure as Code best practices.
- Built **CI/CD** pipelines using **Jenkins** and GitHub to automate application build and deployment workflows.
- Containerized applications using **Docker** and deployed them to **Kubernetes** (EKS) using declarative manifests.
- Configured monitoring dashboards and alerts using CloudWatch and Grafana to track system health and performance.
- Applied **IAM** least-privilege policies and security best practices to protect cloud resources.
- Troubleshoot **deployment** failures, IAM permission issues, and Kubernetes **container** restart problems.

## EDUCATION

### Shivalik College Of Engineering, Dehradun

Bachelor of Technology in Electrical & Electronic Engineering 73% 2023

Diploma in Electrical Engineering 76% 2020
